Education

Certificate, Software Engineering | Thinkful | 2020

Web development with a strong focus on modern best practices, accessibility and design.

Practical mastery of JavaScript, HTML, CSS, React, Node and Postgres.

Summary

Full-Stack developer proficient in HTML, CSS, and JavaScript, React, and Node. As a former figure skating coach I understand the process of taking complex skills/systems and breaking them down into manageable pieces.

Projects

CanSkate App | canskate.vercel.app

- Designed and developed application to help skating coaches manage learn-to-skate programs
- Built using React, HTML, and CSS (frontend)
- Built and deployed a Node/Express server with Postgres database (backend)
- User friendly interface

Dad Jokes DB | marcuses101.github.io/dad-jokes

- Developed app that queries multiple APIs to pair a dad joke with relevant clipArt.
- Built using JQuery, HTML, and CSS (frontend).
- Node and Express (server)
- Clean style, smooth animations.

Figure Skating Quiz App | marcuses101.github.io/FS101-quiz

- Designed a quiz application following the MVC design pattern.
- Built using JQuery, HTML, and CSS.
- Fun 8-bit style.

Experience

Independent Figure Skating Coach | Montreal, QC | 2006-2020

- Managed a clientele of 50+ competitive and recreational skaters.
- NCCP Certified Provincial Coach (National Trained).
- Led seminars across Central and Eastern Canada.
- Developed various tools to aid in organization and efficiency.

Club Coach | CPA Olympique | Montreal, QC | 2012-present

- Implemented various systems to automate club processes.
- Increased club membership by 123%.

CanSkate Program Lead | Patinage Plateau | Montreal, QC | 2014-2018

- Responsible for a program of 150+ clients.
- Led training of Program Assistants.
- Designed an efficient evaluation system.
